MOBIUS - Missouri Bibliographic Information User System

MOBIUS is a consortium of over 70 college, university and public libraries in the state of Missouri. The network provides Internet access to the online catalogs of each of the libraries. This online catalog contains over 18 million items held by the libraries. Through MOBIUS, Logan students, faculty and staff can borrow books, directly or online, from any of the participating libraries. A statewide courier service picks up and delivers requested books five days a week, insuring prompt service. This is a free program.

For more information on MOBIUS, please visit:

http://mobiusconsortium.org/about-mobius
What’s in it for Me?

- Internet access to the online catalogs of Logan and 70+ other college and university libraries in Missouri and beyond.
- Ability to place holds on books from participating libraries and have them sent to you at Logan or the library of your choice.
- Ability to “View Your Library Account” and renew materials with your 9 digit student number.
- Ability to borrow books in person from participating libraries.
- Ability to return books borrowed from participating libraries to Logan Library.

Renew Request View

OR
http://www.logan.edu/library

Click “Library Catalog” to access our catalog. This is your access point for the Logan University Library catalog and the MOBIUS catalog.

Students: In order to view your library account, place books on hold and renew materials, you will need your Campus ID. This is your 9 digit student number including “L”.

Example: 000012345L

Review your list of books and materials after renewing to ensure the completion of all renewals. If there is a hold for another student, you will not be able to renew.

What you need to know...

All other participating libraries will allow you to borrow in person. You will need to know your 9 digit student number and that you are part of the Bridges cluster.

Logan is part of a “cluster” of local libraries called “Bridges”.

Your Logan ID card will serve as your library card at any of the Bridges libraries, in addition to MOBIUS libraries.
